# NEW Tee Information

**Short Sleeve 5.5 oz. • Shoulder-to-Shoulder Tape • Seamless Collarette  
Double-needle Neck, Sleeve and Bottom Hem • Recycled Cotton Blend**

Style:	520							
Fabrication:	18/1 pre-shrunk 5.5 oz. jersey PSY (+/-5%) 69% Pre-consumer Recycled Cotton/29% Acrylic/ 2% Other							
Size:	XS - 4XL							
Specs:	XS	S	M	L	XL	2XL	3XL	4XL
	Width: 16"	18"	20"	22"	24"	26"	28"	30"
	Length: 26"	27"	28"	29"	31"	32"	33"	34"
Case Packs:	XS-XL:	6 Dozen						
	2XL-4XL:	3 Dozen						
Colors:								
								

## Frequently Asked Questions

### How do AnvilRecycled tees help the earth?

Our AnvilRecycled cotton fibers do not require land use or intensive irrigation, therefore no fertilizers or pesticides are needed.

Our AnvilRecycled simplified manufacturing process reduces energy and resource use.

### How is an AnvilRecycled tee manufactured?

**Step 1:** Textile waste or clippings are collected from several pre-consumer venues: new apparel cuttings, upholstery and trim fabric, yarn waste, industrial fibers and tire cord.

**Step 2:** Clippings are sorted by color and chopped into a fine linty material called "shoddy".

**Step 3:** Shoddy is then spun into a yarn that is used to produce AnvilRecycled Tees.

### How do AnvilRecycled tees eliminate waste?

The AnvilRecycled process reduces incinerator and landfill use by reprocessing pre-consumer textile waste into consumer-ready shirts.

### Are AnvilRecycled tees dyed?

AnvilRecycled cotton fibers require no new dyeing because they are color blended by using pre-consumer textile clippings.

To make the world a better place to live, Anvil has taken a strong stand for the environment. We use sustainable manufacturing methods, recycle our cardboard, save our scrap materials to help generate steam power and clean our wastewater. Hey, we live here, too. And doing our part makes the planet a little healthier.

**Anvil. The Right Fit. | For you. For us. For the Earth.**
